CONCRETE • WOOD • MAJOLICA

UN GIORNO
VISSUTO
CON ELEGANZA.

UNA DONNA
SOFISTICATA.

AMBIENTI
DI GRANDE
ISPIRAZIONE.

La materia Ergon interpreta le tendenze contemporanee dell'interior design: definisce le forme architettoniche e coordina gli ambienti in sintonia con uno stile di vita moderno e dinamico. Il tempo scandisce i pensieri ed i gesti che accompagnano le attività della giornata e lo spazio ne accoglie il succedersi. Le linee, i colori e la materia si animano: il risultato evoca una vera e propria scenografia, in cui Tr3nd non solo arricchisce gli ambienti, ma ne è anche l'incredibile protagonista.

Un giorno come tanti, unico e irripetibile.

CEMENTO + LEGNO + MAJOLICA

Progetto articolato per soddisfare i progettisti più esigenti attraverso la combinazione di **cemento+legno+majolica**. Una serie minimal dove l'elegante matt dei cementi e la sobrietà del legno naturale incontrano la lucentezza e la ricchezza materica della majolica.

Tr3nd è un progetto molto versatile che consente straordinarie combinazioni grazie a un ventaglio di **8 nuance, 4 calde e 4 fredde**, per liberare la fantasia dei progetti e generare combinazioni di assoluta tendenza, ideali per progettare grandi e piccole superfici.

GRAFICHE E STRUTTURE

Grafiche sobrie e minimal per i legni e cementi.
Per le majoliche, struttura molto caratterizzata che riprende i movimenti tipici della sua lavorazione.

Utilizzo di **strutture dedicate** per ogni tipologia per conferire tridimensionalità al prodotto.
Grafiche differenti che non si ripetono mai in 10mq ca. di prodotto per ambienti sempre originali e infinite combinazioni.

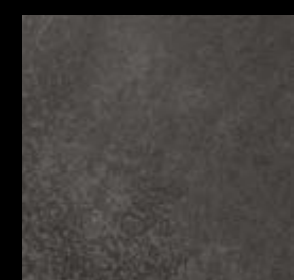

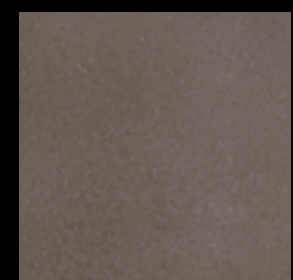

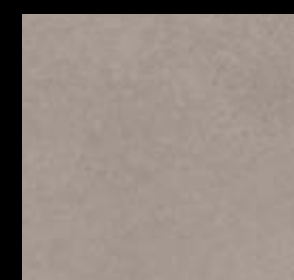

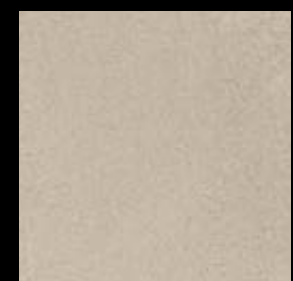

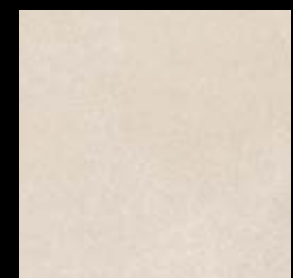

A project structured to delight the most demanding designers and architects, with a combination of concrete+wood+majolica. A minimal series where the elegant matt of concretes and the sobriety of natural wood meet the shine and tactile richness of majolica. Tr3nd is a very versatile project with the potential for extraordinary combinations thanks to an assortment of 8 shades, 4 warm and 4 cold, to free up projects' imagination and generate trend-setting combinations, ideal for designing large and small surfaces.

PATTERNING AND STRUCTURES

Minimal, subtle patterning for the wood and concrete looks. The majolicas have a very distinctive structure with the typical variation derived from the production method.

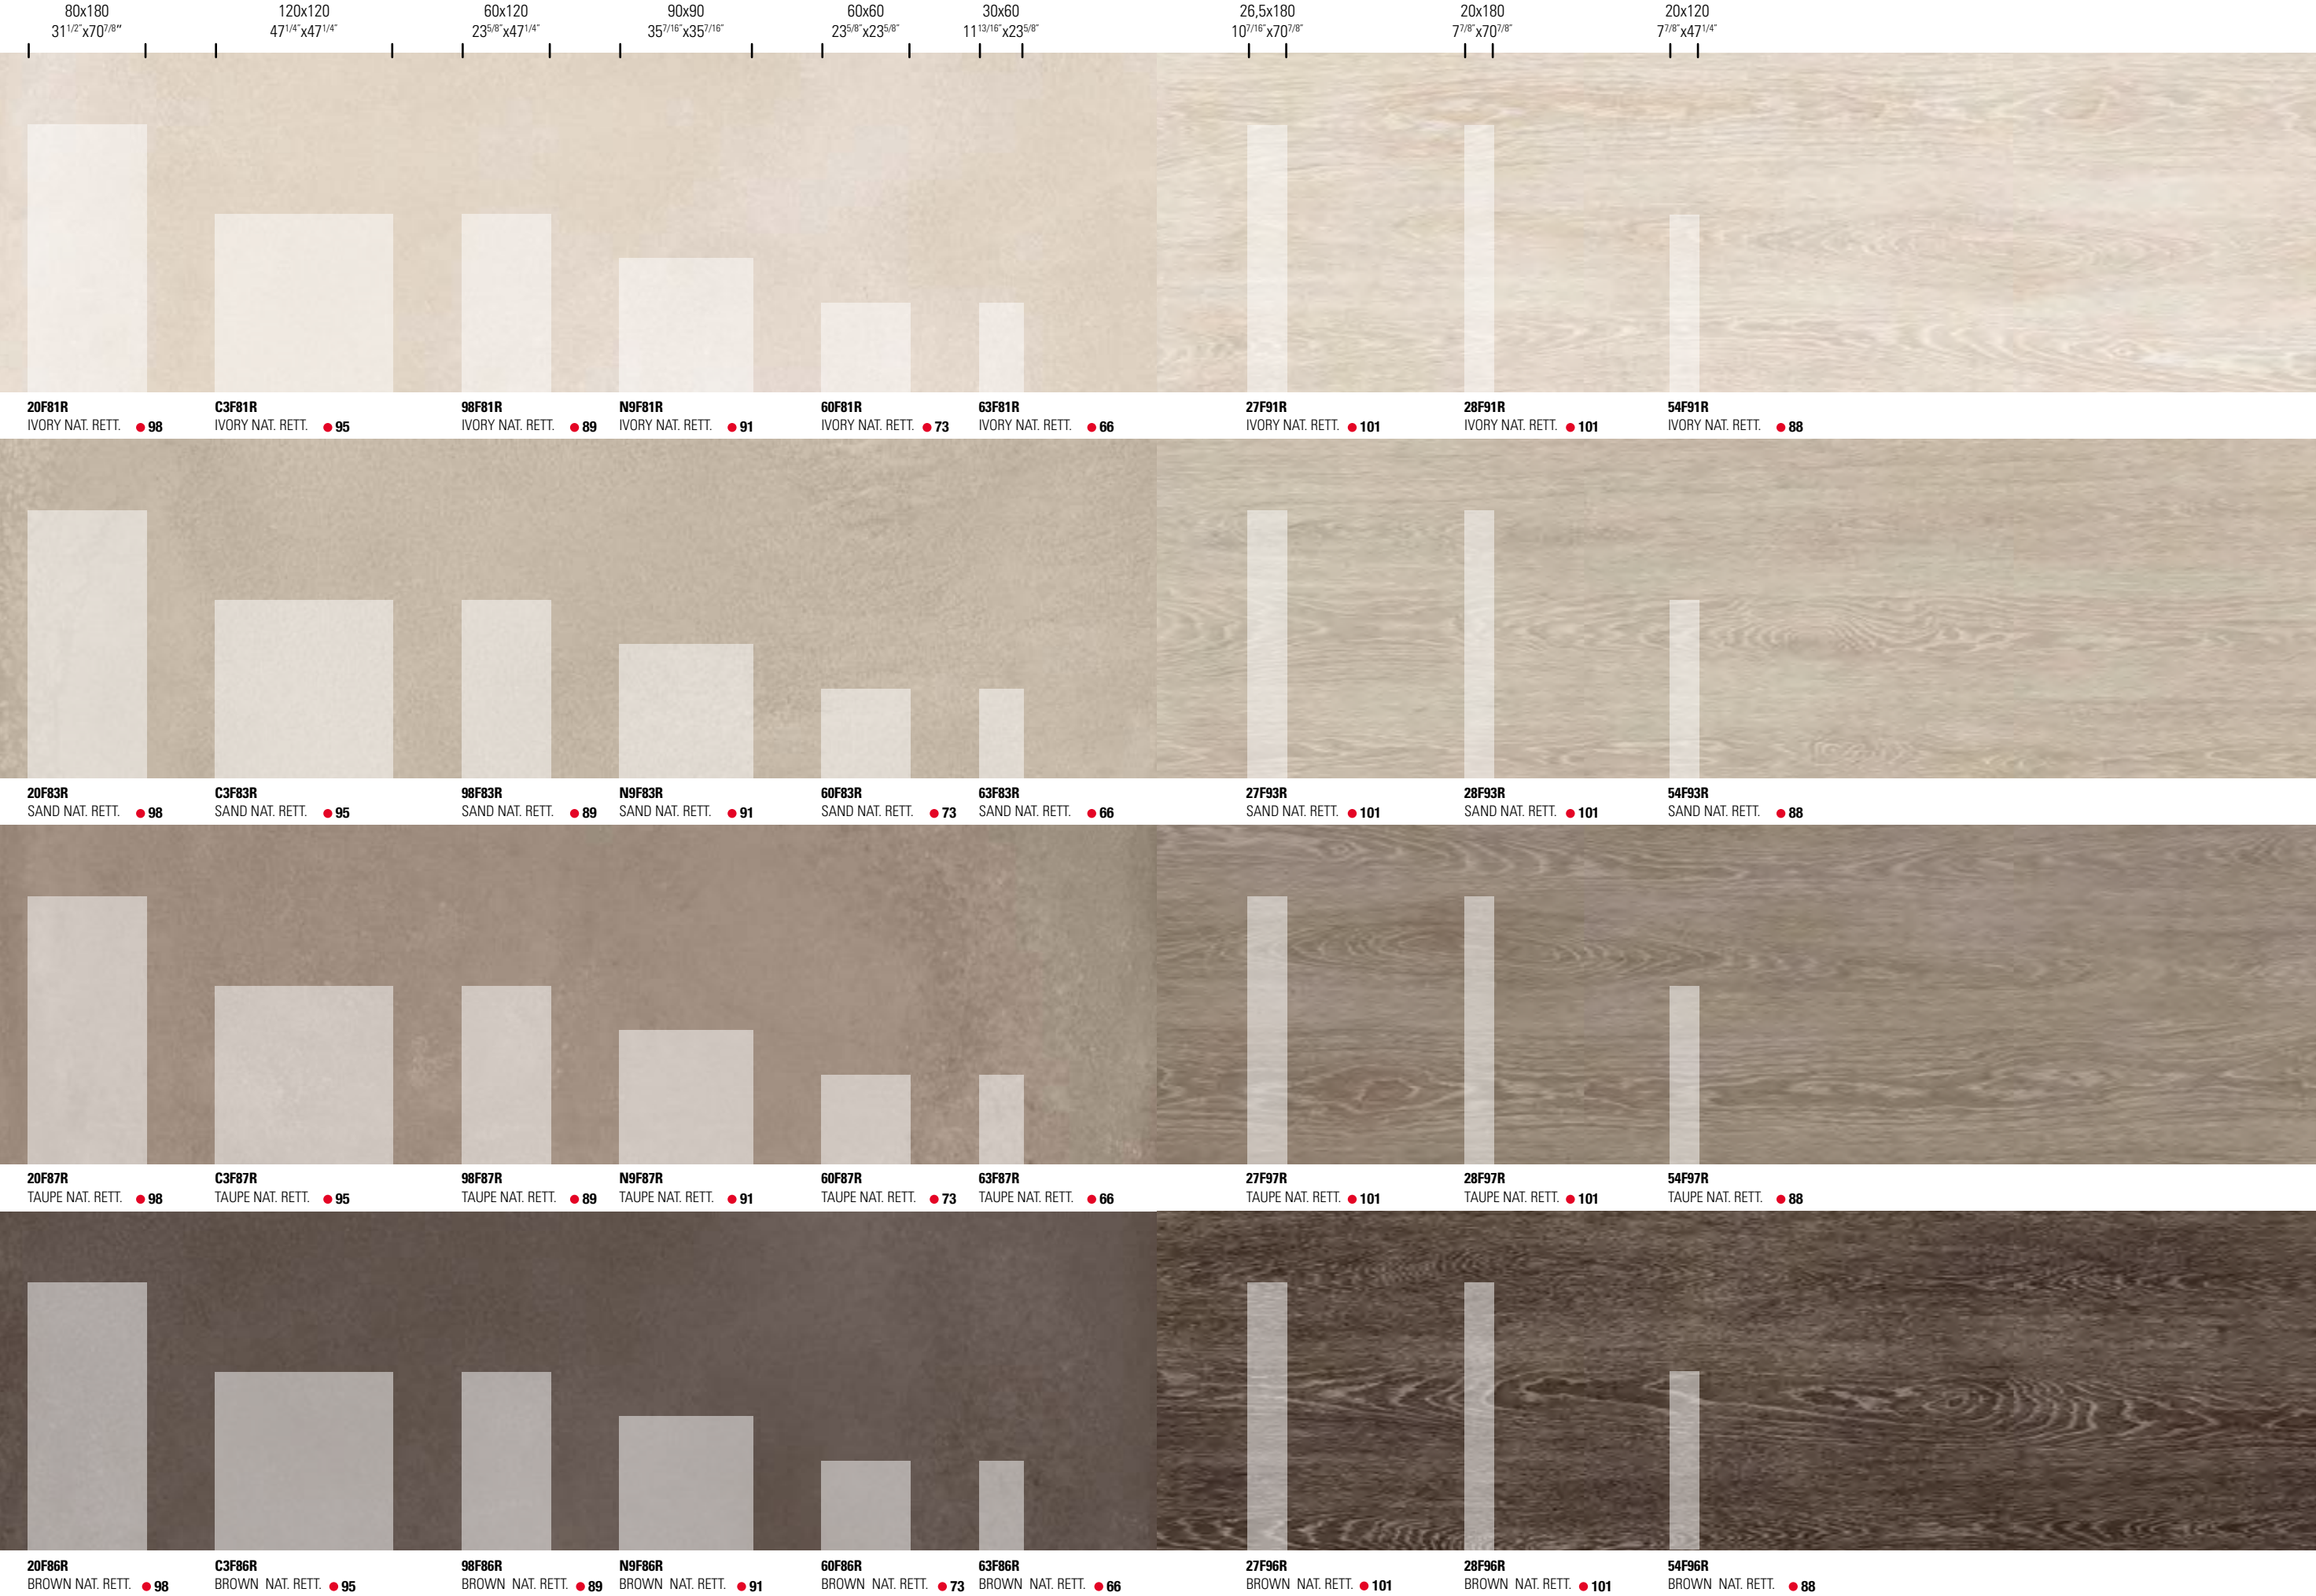

Specific structures are used for each type in the collection to give the product a three-dimensional finish. Different patterns never repeated over about 10 m2 of product, producing constantly original design schemes and infinite combinations.
