

## STONE & RESIN PRODUCTS

# ANTIQUE WOOD PANELS & HIVE TILES

A low-maintenance alternative, our Antique Wood and Hive products have the lifelike appearance and texture of aged wood and natural stone. This system was designed with quality and durability in mind and is water-resistant, non-warping, non-porous, and non-splintering. We make them from recycled stone that has been mixed with resin, and we build them to last. The Antique wood panels are interlocking for a seamless installation, while the Hive tiles come in concave and convex pairs that will add dimension and excitement to any project.

AVG. SF. PER BOX	4.2 sq. ft.	4.3 sq. ft.
PIECES PER BOX	10 (5 convex, 5 concave)	10 (5 convex, 5 concave)

\*All claims and technical information is provided by the Hive manufacturer. Information is subject to change without notice.

1. Barnwood and Driftwood products may temporarily produce an odor which will dissipate over time. 2. Product must not be installed in direct contact with heat source.

Hive tiles are made of engineered marble and travertine stone which inherently lack uniformity and are subject to variations in aesthetics, color, shade, finish, tint, hardness, strength resistance, density, etc. These qualities are inherent in the nature of the product and are not to be considered latent defects. Realstone Systems does not provide installation services.
